

# **Chronic Condition Management PROGRAMS**

**Managing a chronic condition can be complex and frustrating.**  
*You and your dependents with chronic conditions do not have to manage alone!*

## WHAT IS CHRONIC CONDITION MANAGEMENT?

The Health Advantage chronic condition management program helps you and your dependents manage any of these chronic conditions:

- Diabetes (adult and youth)
- Asthma (adult and youth)
- Congestive heart failure (CHF)
- Chronic obstructive pulmonary disease (COPD)
- Coronary artery disease

Our goal is to listen to our members and understand your healthcare needs and concerns in order to help you manage your chronic condition.

## WHO IS ELIGIBLE TO PARTICIPATE?

If you've been diagnosed with one of these conditions, you may call the toll-free number listed on the back of this flyer to learn about the program. You also may be contacted by one of our registered nurses (R.N.s) to join the program. The program is part of your health plan, available at no additional cost.

## WHAT SERVICES ARE AVAILABLE?

Once you are enrolled, R.N.s will work with you to help set goals and manage conditions by:

- Providing educational materials to help you develop self-management skills
- Follow-up phone calls to help you reach your goals for chronic condition management
- Providing a toll-free telephone number that you can call for answers to your questions apart from scheduled calls with your R.N.
- Discussing your care with your doctor, with your permission
- Helping you find helpful community resources (like support groups, assistance with medication expenses, etc.)
- Providing education on healthy living

**Health Advantage**

An Independent Licensee of the Blue Cross and Blue Shield Association
