Position classification is creating and classifying positions with a title, classification code (job code), and grade level. During each legislative session, the General Assembly will approve the classification titles with assigned grades. Each state agency has a specified number of positions that are authorized in its appropriation act. Salaries for positions covered in an agency's appropriation act must be made in accordance with the Class/Comp Act.

Each position title in the classification system will be described by a class specification which includes a summary of the overall job functions, a listing of typical job functions, a list of knowledge, skills and abilities, and minimum qualifications. The class specification will also contain information on licensures or certifications required to hold the position.

All state agencies are required to comply with the Class/Comp Act unless other provisions in special language found in their appropriation act specifically allows for salary increases, grade assignments, class title assignments, salary increase eligibility, or other provisions different from the Class/Comp Act.

The following agencies are not under the governance of the Class/Comp Act:

1. Constitutional Officers and their employees;
2. The General Assembly and its employees, including employees of the Bureau of Legislative Research and the Division of Legislative Audit;
3. Members and employees of the Supreme Court, the Court of Appeals, circuit courts, prosecuting attorneys, and the Administrative Office of the Courts;
