**FREQUENTLY ASKED QUESTIONS**
Who is eligible for coverage under a Delta Dental Individual and Family plan?
You must be an Arkansas resident and a State of Arkansas Retiree Program member to be eligible for coverage. Acceptance is guaranteed regardless of age, dental history, or pre-existing conditions.

What are the age limitations for dependent children?
Dependent children can continue coverage until the end of the month in which they turn 26.

What services are NOT covered under this plan?
For a complete list of services not covered, please visit our website to view the Schedule of Benefits. General services that are not covered include:
- Tooth implants
- Tooth whitening
- Athletic mouth guards
- Braces and retainers
- Treatment for TMJ (temporomandibular joint disturbances)
- Services to correct cosmetic dentistry
- Dental care started prior to the date the patient became covered under this plan.
Delta Dental also offers vision insurance when you select an individual or family dental plan.

Vision and eye health problems are several of the most prevalent and chronic health care problems in the United States—affecting more than 20 million people. Like dental insurance, vision plans promote routine care, which keeps your eyes healthy and can help detect diseases such as diabetes.

Choose the dental plan that best fits your needs, and add vision to receive coverage for eyeglasses or exams and contacts. With Delta Dental, you can keep your smile and vision healthy at a price you can afford.

Delta Dental has the largest network of dentists in Arkansas and across the nation, which means you will find affordable care wherever you are.

OUT-OF-NETWORK BENEFITS (NON-PARTICIPATING)

Services conducted through an out-of-network dentist will be subject to the applicable deductibles, copayments and maximums.

*WAITING PERIODS WILL BE WAIVED IF:
1. Your application is received within 31 days of the termination of your prior coverage.
2. You have had at least six months of continuous coverage in the United States—affecting more than 120 million people; those without, resulting in better dental and overall health.
