If you are not certain whether an action would be considered sexual harassment, you might use the following guidelines. Sexual harassment exists when:

- Decisions about your employment are based on whether you submit to or reject a sexual advance; or
- Regular or repeated actions or items are displayed in the workplace that create an intimidating, hostile or offensive work environment and make it unreasonably difficult to do your job.

This broad definition covers activity between supervisor and subordinate, between co-employees, and between employees and third parties that regularly do business with the Company.

Sound Concepts asks each of you for your help to ensure that all employees are treated in a way that is fair, humane, respectful, and free from harassment.

### **CAREER OPPORTUNITIES**
