

CURRENT ARCHITECTURE

- Varied email server versions & providers
- Varied email domains
- Varied MS 365 product versions
- Varied or no anti-virus
- Varied or no content management
- Varied cloud storage products

CURRENT ISSUES

- Disparate email support needs and concern for information security
- Difficulty in finding email users
- Incompatibilities between documents
- Disparate support for endpoint security and mobile devices
- Lack of central reporting ability
- Inability to address retention requirements
- Security concerns with cloud services

Department A

@dfa.arkansas.gov

Department B

@dhs.arkansas.gov

Department C

@gmail.com

All Executive Branch Departments

TARGET ARCHITECTURE

- One @arkansas.gov exchange domain
- Exchange Online
- Latest MS Office version
- MS Advanced Threat Protection (ATP)
- Mobile Device Management (MDM)
