

WHAT IS MSC'S SAFETY NEEDS ANALYSIS (SNA)?

AN UNBIASED ASSESSMENT OF YOUR HEALTH AND SAFETY RISK

Conducted by our Industrial Safety Consultants, our **SNA** results in a customized solution proposal designed to **reduce risk, improve productivity and profitability, and keep your employees going home safely.**

Step 1	Step 2	Step 3	Step 4
Discovery & Qualification	Process & Data Review	Current & Future Risk Identification	Actionable Solutions

Our areas of focus...

- Lock Out, Tag Out
- Fall Protection
- Training
- PPE
- Facility Safety
- OSHA and Industry Standards

What we deliver...

Our team assists with all technical, application and product challenges. With over 180 years of combined experience, the team will update you on the newest technology and techniques to deliver risk reduction and safety improvements that **improve productivity and profitability through:**

- Risk assessment
- Application recommendations
- Hierarchy of controls
- Product evaluation & selection
- Documenting cost savings
- Inspection services
- Identifying non-catalog solutions

This team supports all major manufacturers of safety products and service providers and can help you find the solutions that work for your business

To get started, work with your MSC sales associate and they'll take it from there.
