Sustainable Products

Our commitment to high-sourcing standards begins with our Responsible Sourcing Policy, which sets forth principles our suppliers must meet in key areas, including legal compliance, food safety, human rights, physical safety and the environment. The standards in the policy are informed by the United Nations Universal

Declaration of Human Rights, the International Labor Organization Conventions and Recommendations, the United Nations Guiding Principles on Business and Human Rights and related internationally recognized standards. We ask that suppliers train their associates to understand and comply with these standards.

We have made a strong commitment to stock many environmentally preferable products in our distribution center. We continue to review new products that become available and we listen to what our customers are looking for with regard to environmentally preferable products to have in stock. In addition, we train our sales force on these items so that they are well informed when talking to customers in the marketplace. We are receptive to

developing relationships with other local vendors that we do not currently buy from. US Foods is a proud member of the following industry groups, engaging with them on evolving industry-wide food safety and quality considerations:

- Beef Industry Food Safety Council
- Global Sustainable Seafood Initiative
- National Fisheries Institute

The product should then be picked up at the customer location on its next delivery day. In certain cases, when returning certain special order Equipment and Supplies, not carried in the local distribution center, there could be a restocking fee for picking up such product and returning it to the manufacturer's plant. The restocking fee is determined by the manufacturer, not US Foods. <p>Included in our comprehensive QSP on-boarding package, we provide each customer with a copy of our Food Safety and Quality Assurance Return Policy and Recall Process.</p> <p>This policy is subject to change as needed to accommodate changing food safety and handling regulations and business needs as appropriate.</p>	*

Table 9B: Performance Standards or Guarantees

Describe in detail your performance standards or guarantees, including conditions and requirements to qualify, claims procedure, and overall structure. You may upload representative samples of your performance materials (if applicable) in the document upload section of your response in addition to responding to the questions below.

53	Describe any performance standards or guarantees that apply to your services	<p>Substitution Process: US Foods offers the following substitution process to assure that the procedure for approval and acceptance of substitutions is maintained and offers Members the opportunity to recover damages for substitutions if US Foods fails to follow the substitution policy. However, the decision to substitute a product will remain with the Member at the time that the order is placed. Should a product be unavailable the Member can choose to select a substitute or wait for the original item to become available. If the Member does choose to select a substitute, it will be priced in accordance with the pricing formula contained in this RFP. US Foods may make no automatic product substitutions without prior approval from the Member. If US Foods fails to have a product on hand at when the product is ordered and the Member has provided written or electronic pre-approval to automatically substitute another product for such product, US Foods shall automatically make the approved substitution ("automatic product substitution" or "auto-sub"). Further, the Member may upon being notified of the out-of-stock condition, authorize an alternate product be substituted. Automatic product substitutions should be of equal or better quality to the product originally ordered. Auto-sub and authorized-sub products shall be priced at delivered price plus the distribution fees.</p> <p>Substitution Guarantee: The Member may ask US Foods to pay damages for Non-Compliance with the Product Substitution Provision. Failure to comply with the Product Substitution provision will result in US Foods being required to pay damages as shown in the table below.</p> <p>First occurrence -written notice Second occurrence - \$125 damages Third occurrence -\$250 damages Fourth and each successive occurrence \$1,000</p>
54	Describe any service standards or guarantees that apply to your services (policies, metrics, KPIs, etc.)	<p>Service Guarantee: US Foods offers the following service guarantee to assure that the fill-rate is maintained, and offers Members the opportunity to recover damages if their fill-rate falls below 98% according to the following:</p> <p>Fill-Rate Guarantee: US Foods will compensate the customer for failure to provide service at the guaranteed level. The Customer may request that US Foods conduct a service-level audit within 15 days of the closing of the month. Upon receipt of the request, US Foods will audit the prior month's fill rate record and provide a review of the service record within 15 working days. Should the fill-rate audit reveal a one-month fill-rate below 98 %, US Foods will pay, credit, or by mutual agreement otherwise compensate the Member for the difference between actual fill-rate and the guaranteed fill-rate according to the following formula:</p> <p>(fill-rate guarantee) - (actual service level) x (total participating customer purchases from US Foods less credits, rebates, discounts, returns, allowances, and other adjustments paid to or credited to customer for the one-month period) x 10%.</p> <p>Fill-rate damages = (.98 - .90) x (\$100,000) x (10%) = \$800</p> <p>Product fill rate is defined as the percentile representation of cases filled, on the first scheduled delivery following order placement for a participating member during a one-month period, divided by total cases ordered by that participating member for that same period. Line items filled do not include authorized or unauthorized substituted products. US Food's inability to deliver due to a force majeure event, crop shortage, manufacturer allocations, inventory shortage, pandemic, strike, and other uncontrollable factors caused by the participating member's unusual demand (greater than 110 percent of prior month average order for each item), and/or special orders (items not included in the member's regular order guide) will not be included in fill rate calculations.</p>

Publicly owned and operated schools, school districts and government agencies are required to provide proof of public ownership and contact information for their payables office and personnel. Payment terms may range from COD to Net 30 days. In addition, US Foods offers SOURCEWELL members a Prompt Pay off invoice incentive. This incentive can be applied off invoice in the form of a line-item deduction off the total invoice or can be paid in the form of a credit memo upon request. The payments incentives listed below would be applied as a percentage to each invoice as earned and are re-evaluated on a quarterly basis. Table 11: Pricing and Delivery

Provide detailed pricing information in the questions that follow below. Keep in mind that reasonable price and product adjustments can be made during the term of an awarded Contract as described in the RFP, the template Contract, and the Sourcewell Price and Product Change Request Form.

Line Item	Question	Response *
59	Describe your pricing model (e.g., line-item discounts or product-category discounts). Provide detailed pricing data (including standard or list pricing and the Sourcewell discounted price) on all of the items that you want Sourcewell to consider as part of your RFP response. If applicable, provide a SKU for each item in your proposal.	<p>US Foods' Pricing Model: US Foods uses a Delivered Price Plus Markup Methodology (commonly referred to as Cost Plus % markup or fee/cs). All products purchased by participating SOURCEWELL member are covered by a firm markup by category. US Foods calculates the price at which we sell each product under this RFP to</p>

Upload your pricing materials (if applicable) in the document upload section of your response.

SOURCEWELL members, with either a fee per case or a percentage mark up, using the following definitions and calculations.

Sell Price:

Sell Price is the price at which we will sell products to SOURCEWELL members. US Foods' customers are responsible for all applicable customs, duties, fees, taxes or other payment for such products.

The sell price of each product priced under this agreement will equal (a) the delivered price of such product, plus (b) the percentage markup or fee per case markup on the Distribution Markup Schedule for the product category, less (c) off-invoice discounts or off-invoice allowances. For those SOURCEWELL members that require a fee per case mark up, the Sell Price is calculated as follows: $\text{Sell Price} = \text{Delivered Price} + \text{fee per case}$. For those SOURCEWELL members that require a percentage mark up, the Sell Price is calculated as follows: $\text{Sell Price} = \text{Delivered Price} \times (1 + \text{Mark-Up})$.

Example Markup per Case Sell Price:

Distributor delivered price:	31.00	
Mfr. agreement discount		- 6.20
Distributor discounted delivered price	24.80	
Markup 7.55% (cost x 1.0755)	1.87	
Member Invoiced Sell Price	26.67	

The price to participating members for all products sold under this agreement (the "Sell Price") will be calculated on the basis of delivered price to US Foods. For the purposes of this agreement, "delivered price" to US Foods is defined as follows:

- In the case of contract products, the amount provided in the applicable supplier agreement as the national or regional contract price to be billed to members without the subtraction for cash discounts allowed by suppliers for prompt payment and prior to the addition of the markup.
- In the case of non-contract products, the manufacturer's (supplier, packer or any other vendor) delivered price on the manufacturer's invoice, if available from manufacturer, or unit price FOB manufacturer's dock plus standard freight (as hereinafter defined) to USF's distribution center, less off-invoice discounts or off-invoice allowances (to mean manufacturer-generated discounts or allowances on particular items for set periods of time, which are specifically reflected on the invoice).
- Where a participating member, or USF on behalf of a participating member, has determined a price for any product directly with its supplier, the delivered price for all such products shall be that determined price.

Standard freight, in those cases where the invoice cost to the delivering primary ordering location is not a delivered price, means a reasonable freight charge to transport a product from the supplier to the primary ordering location based on market tariff conditions. Freight charges may include common or contract carrier charges imposed by the manufacturer (supplier, packer or any other vendor) or a carrier or charges billed by USF's freight management service. Standard freight for any product will not exceed (a) the manufacturer freight price normally payable by the Authorized Distributor distribution center for inbound shipments of regular quantity requirements of such products for such distribution center that would have been paid had freight not been managed by USF or its affiliates; or (b) if there is no manufacturer price, an average price based on market conditions for freight in the same market for the same type of freight service for like products, shipping methods and quantities, which may include consideration of standard tariff rates. Alaska Participating entities will receive pricing based on the guidelines in this proposal with the addition of Ocean and Outbound Freight as follows: Delivered cost includes Ocean Freight which is all inclusive for shipment from Seattle to Anchorage including ocean fuel surcharges, and Outbound Freight delivered to the customer locations via the US Foods Anchorage Distribution Center. These rates are subject to general rate and fuel surcharge changes as mandated by Ocean Carriers. Rates are subject change based off

published General Rate Increases and Ocean Fuel Surcharge changes.

We also earn income and profit from value-added services we provide, such as regional and national marketing, freight management, procurement leverage, consolidated warehousing, quality assurance, and performance-based product marketing. We also receive income and make a profit from the sale of our Exclusive Brand Products, from our Suppliers through promotional allowances, cash discounts, prompt pay discounts, growth programs, and from other transactional payments and our management of competitive conditions. All of this income and profit is referred to as "Earned Income." We may negotiate or set the invoice price and amount of earned income we receive from our Suppliers. The Sell Price is not adjusted for Earned Income.

Due to the added handling and damage costs associated with handling less than full cases of the product, a special handling charge of 1 percent will be added to the markup of all products sold by individual container or in less than full cases. This special handling charge will be applied to the markup as defined above.

Delivered Price:

The Delivered Price refers to our Supplier's invoice or quote, which may include a transportation fee for inbound shipment to our distribution center. For purposes here of, "Supplier" means manufacturers, vendors, suppliers, packers, brokers, redistributors, consolidators, transaction service providers and USF business units and affiliates. When our Supplier's invoice or quote does not include a fee for transporting products, Delivered Price will include compensation to us for inbound shipment to our distribution centers and, in such situations, the transportation fee will not exceed the average market freight price, for comparable products, shipping methods and quantities. We may use our logistics expertise to manage freight and consolidate orders and may earn income and profit from those freight management activities; provided that Delivered Price will not exceed the f.o.b. origin unit price plus the transportation fee for inbound shipments to our distribution center that would have been payable at the quantities ordered had we not managed freight.

For products sold under trademarks owned and licensed by us ("Exclusive Brand Products"), Delivered Price may be calculated based on our published price list plus any applicable service charge. If there is a national agreement between us and a Supplier that specifies the price we must charge our customers for certain products, the Sell Price, which is the price at which we will sell products to you, will be governed by such national agreements. Delivered Price will include any duties, taxes or fees we are charged by a Supplier. All manufacturer's discounts on the face of the invoice or that are otherwise designated by a Supplier to be passed on to you will be applied when determining the Sell Price. Delivered Price is a price, not an actual product cost, and may include Earned Income. "Earned Income" is the income and profit we make from value-added services we provide, such as regional and national marketing, freight management, procurement leverage, consolidated warehousing, quality assurance, and performance-based product marketing. We also receive income and make a profit from the sale of our Exclusive Brand Products, from our Suppliers through promotional allowances, cash discounts, prompt pay discounts, growth programs, and from other transactional payments and our management of competitive conditions. All of this income and profit is referred to as "Earned Income." We may negotiate or set the invoice price and amount of earned income we receive from our Suppliers. The Sell Price is not adjusted for Earned Income.

Changes in Cost Indices:

For customers requiring a fee per case mark up, the fee will be reviewed on an annual basis and will be adjusted to reflect changes in the Consumer Price Index (CPI-U). We understand and will comply with the SOURCEWELL guidelines for price change communication.

Price Change Frequency:

US Foods will provide all customers with an order guide listing

		<p>current prices for products at the beginning of each month during the term of the awarded contract. The price for each product will be determined based on the above formula at the time the order guide is prepared and sent to customers and will be subject to weekly updates in the product categories listed below.</p> <p>Weekly: Beef, veal, cheese, coffee, dairy, shell eggs, flour, rice, sugar, lamb, specialty meats, mayonnaise, oil and shortenings, orange juice, pork, poultry, produce, seafood.</p> <p>Monthly: Disposables, dry goods, refrigerated items, foodservice chemicals, frozen goods, frozen juice, nutritional items, smallwares, equipment</p> <p>Stock Keeping Units:</p> <p>US Foods provides approximately 400,000 fresh, frozen, and dry food stock-keeping units, or SKUs, as well as non-food items, sourced from over 5,000 suppliers, which are available for review on usfoods.com to customers based on the servicing division. Due to the number of items we make available to customers, our ability to provide these items within the context of this response is not possible.</p>
60	<p>Quantify the pricing discount represented by the pricing proposal in this response. For example, if the pricing in your response represents a percentage discount from MSRP or list, state the percentage or percentage range.</p>	<p>US Foods' pricing model is not based on a discount from MSRP/published list. As stated above in question 59, our price model is cost plus percentage markup for non-K12 agencies. Through this proposal, members will have access to 310+ manufacturer agreements with average discounts of 20% which is over 50,000 individual line items or sku's with negotiated program pricing that is reflected in our final price to the customer.</p>
61	<p>Describe any quantity or volume discounts or rebate programs that you offer.</p>	<p>Our proposal offers several incentives and rebate programs, enabling members to further maximize program value based on total spend, operational efficiencies and product selection.</p> <p>1) Operational Incentives for non K12 Operational incentives for Volume, Drop Size and Payment are applied off-invoice as a line item deduction off the total invoice. This means this incentive is instant and there is no waiting period to receive your incentive. Volume, Drop size and Payment incentives can be paid as a quarterly credit memo upon request.</p> <p>Volume Incentive: This incentive may be earned by individual customers with annual spend of \$1M or greater. Districts and multi-unit customers who make purchasing decisions as a group are considered one entity and may earn volume incentive based on group, district, or system total annual spend. This incentive can be applied off invoice in the form of a line-item deduction off the total invoice or can be paid in the form of a credit memo upon request. The payments incentives listed below would be applied as a percentage to each invoice as earned and are re-evaluated on a quarterly basis. A program upcharge for DSO performance of 31 days+ would be reflected as an increase in the applicable program fee per case schedule.</p> <p>Incentive: Prepayment incentive= -.60% 0-10 day DSO= -.30% 11-15 day DSO= -.25% 16-20 day DSO= . -10%</p>

2) New Member Rebate:

US Foods offers a rebate to any new member of SOURCEWELL that elects to transition from another distributor to US Foods under the terms and conditions of an awarded agreement. The New Member Rebate will be calculated at .85% of total purchases for the first twelve (12) months starting from the date of the first delivery. This is paid as a credit memo or a check in two 6-month intervals.

3) US Food Exclusive Brand (EB) Product Rebate:

Rebate of 1% on all USF exclusive brands that are not VMA contracted, paid directly to members bi-annually as a credit memo on each customer number.

4) Fuel Surcharges:

Currently US Foods does not have a fuel surcharge. If at any time during the agreement term the national average "weekly retail on highway diesel" increases to

\$5.00, then US Foods may propose the terms of an Extraordinary Fuel Hardship Relief Program that could require Sourcewell members to pay a fuel surcharge.

US Foods will communicate the fuel surcharge fee to Sourcewell members in advance of the increase taking and it will be reflected on the customer's invoice as a separate line item.

62	Propose a method of facilitating “sourced” products or related services, which may be referred to as “open market” items or “nonstandard options”. For example, you may supply such items “at cost” or “at cost plus a percentage,” or you may supply a quote for each such request.	<p>US Foods understands that our customers may need to order products that are not currently in inventory and may want to special order. US Foods is able to special order products from all of our current manufacturers. There is no additional charge for special order products distributed through the distribution center. Special Order products will be priced at delivered price plus the distribution fee per case or percentage mark-up according to the applicable pricing tier and product category, as outlined in our definition of delivered price and sell above in question 59.</p> <p>Special Order Process:</p> <ul style="list-style-type: none"> • Customers can work with their US Foods Account Representative to identify products during the onboarding process. Once the items are brought into stock, (average lead time of 4-6 weeks), you will be notified by US Foods, and the items will be delivered within the next delivery day after they arrive at the US Foods distribution center. • We utilize a Special Order or Direct Shipment (SODS) tool, which allows US Foods to start the process online and which provides the customer with an easy tracking system of the progress. <p>US Foods Direct Introduced in 2020, this process is our solution to many of the commonly special order items of our customers across the country. 63	Identify any element of the total cost of acquisition that is NOT included in the pricing submitted with your response. This includes all additional charges associated with a purchase that are not directly identified as freight or shipping charges. For example, list costs for items like pre-delivery inspection, installation, set up, mandatory training, or initial inspection. Identify any parties that impose such costs and their relationship to the Proposer.	This question does not apply to US Foods, as our pricing model includes all costs of acquisition.	
64	If freight, delivery, or shipping is an additional cost to the Sourcewell participating entity, describe in detail the complete freight, shipping, and delivery program.	Stocked and Special Order purchases from US Foods include freight, as outlined in our definition of delivered price and sell above in question 59. The exception to this may be foodservice equipment shipped directly from the manufacturer. If a SOURCEWELL member wants to order foodservice equipment, shipped directly from the manufacturer, US Foods will provide a quotation to the customer which identifies any additional freight fees. Freight fees are determined by the shipping manufacturer.	
65	Specifically describe freight, shipping, and delivery terms or programs available for Alaska, Hawaii, Canada, or any offshore delivery.	Alaska Participating entities will receive pricing based on the guidelines in this proposal with the addition of Ocean and Outbound Freight as follows: Delivered cost includes Ocean Freight which is all inclusive for shipment from Seattle to Anchorage including ocean fuel surcharges, and Outbound Freight delivered to the customer locations via the US Foods Anchorage Distribution Center. These rates are subject to general rate and fuel surcharge changes as mandated by Ocean Carriers. Rates are subject change based off published General Rate Increases and Ocean Fuel Surcharge changes. Hawaii and other offshore locations are not currently included in our service area.

This process includes ensuring that Sourcewell participating entities obtain the proper pricing, that the Vendor reports all sales under the Contract each quarter, and that the Vendor remits the proper administrative fee to Sourcewell. SOURCEWELL/USF agreement, and

- All National-Level customer/supplier price agreements. Manufacturer Agreement Pricing

All supplier/manufacture national agreements (VMAs) are sent to a dedicated US Foods associate. The US Foods associate is responsible for coding of the item with the corresponding US Foods item number as well as the entry of the specific pricing into our system. An independent auditor from the US Foods Audit Group compares all pricing from the manufacturer agreement with the new pricing entered into the system for accuracy. Each qualifying SOURCEWELL member with a member id is then "linked" or "attached" to the applicable contractual pricing. This process is managed and maintained by the US Foods National Sales Maintenance Group. Entry of both distribution agreement information and manufacturer agreement pricing is entered and maintained into the mainframe system. Should an error in pricing be identified, it is corrected for all customers that were affected by the error.

Benefits of National Execution:

Consistent system employed across the company to manage contracts and contractual pricing, Reduces the likelihood of keying errors as multiple keystrokes have been eliminated, Tightly structured, controlled system to manage pricing, Improved pricing integrity to our members, and Verifying accuracy, an audit process is implemented comparing all pricing from the supplier agreement with the new pricing entered into the contract system.

Member Audit Rights

Ultimately customers using the Sourcewell/USF contract have audit rights as provided by our national agreement. SOURCEWELL members have audit rights following these guidelines, ensuring a timely, fair, and accurate processes and review:

The member must request a price audit in writing at least 30 business days prior to the suggested date of the price audit. This request must identify up to 30 items to be verified with one price point verification per item.

The audit period shall be the 13 weeks immediately preceding such audit.

The date and time of the audit must be to the mutual agreement of both parties.

The audit will be conducted at the US Foods office servicing the participating customer or virtual.

If the 30-item audit reveals an error ratio greater than 10 percent, the member has the right to request an expanded audit of 100 items, following the process cited above.

If the 100-item audit reveals an error ratio greater than 10 percent, the member has the right to request an audit of all purchases for the 13 weeks preceding such audit.

Quarterly SOURCEWELL Sales Reporting and Audit:

Reporting Relationships As the current awarded distributor for Sourcewell's food contract, US

Foods is honored to respond to this RFP. Our proposal utilizes the USF/Vizient Distributor Agreement between US Foods and Vizient as the

program and pricing base agreement. Sourcewell members that have been provided a Vizient access ID, will have the ability to purchase food and food related products from US Foods under the Sourcewell food contract awarded to US Foods resulting from this RFP. OMNIA Partners is Vizient's channel partner for the public sector segment. US Foods' sales generated from customers using the Sourcewell food contract are reported to Vizient, and therefore to OMNIA Partners. OMNIA Partners will be responsible for providing US Foods sales quarterly to Sourcewell, using the following process.

- When a qualifying agency requests to utilize the SOURCEWELL/USF Contract, OMNIA Partners will create a Vizient access id with an indicator identifying SOURCEWELL contract access.
- US Foods will follow US Foods' standard customer set up process including linking the agency's USF customer number

		<p>to the appropriate SOURCEWELL/USF Contract pricing.</p> <ul style="list-style-type: none"> • As part of US Foods' comprehensive set up process, US Foods will audit the account for contract linkage and applicable program incentives prior to the first order the SOURCEWELL/USF Contract. • US Foods provides monthly sales reporting by customer to OMNIA Partners via Vizient. • US Foods and OMNIA Partners will conduct a quarterly review of sales activity prior to OMNIA Partners providing sales reporting to SOURCEWELL. • US Foods will conduct business reviews with SOURCEWELL, at a frequency and format determined by SOURCEWELL. The purpose is to review contract activity, results, member value, and continuous development of strategic growth plans, ensuring we are together aligned with mutual goals.

Table 15: Industry Specific Questions

Line Item	Question	Response *
76	Describe your out-of-stock/backorder, special orders, and product substitution policies.	<p>At the time of order our system notifies customers of any products that are unavailable. US Foods customers have the ability to choose their substitutions online. If a SOURCEWELL member orders a product that is out of stock, they will often be prompted with a product option that has been best matched by description and price for the item in question. Otherwise, our customers can search the product catalog for an alternative product. If the customer wishes that we check their orders for out of stocks instead, our customer service department can look for acceptable substitutions and contact the appropriate person in the foodservice department to verify that the alternative is acceptable. All such approved products will then be listed on our invoices upon delivery.</p> <p>US Foods will make no product substitutions without prior approval from the customer. If US Foods does not have a product on hand at the distribution center when the product is ordered, and the member has provided written or electronic preapproval to substitute another product for it, US Foods will automatically make the approved substitution (“automatic product substitution” or “auto-sub”). Further, the customer may, upon being notified of the out-of-stock condition, authorize an alternative product be substituted (“authorized substitution” or “authorized-sub”). Automatic product substitutions should be of equal or better quality to the product originally ordered. Auto-sub and authorized-sub products shall be priced at delivered price plus the distribution fees.</p> <p>US Foods does not backorder products.</p>

77	Describe your product recall policies and processes.	<p>Food Safety is a CORE Value at US Foods. To that end, we utilize Best-in-Class Tracking and Recall Programs.</p> <p>As an active member of Global Food Safety Initiative (GFSI) and GLOBALG.A.P (Good Agricultural Practices), US Foods contributes to the implementation of internationally recognized food safety standards, including a best-in-class recall and recovery program that quickly contacts customers with accurate information about a recall and initiates product recovery. Affected customers are contacted within 24-hours upon notification from suppliers. Count on US Foods to keep SOURCEWELL members informed and to keep recalled product out of their operations. Recall notices are also logged and available on US Foods Online.</p> <p>Recall Process: We have developed a best-in-class procedure for notification of potential recalls and product holds. All product recalls are generated by the US Foods quality and assurance department. The facility has a coordinator on site with two back-ups. The facility follows all Federal Government guidelines pertaining to the level of product recall. US Foods policy requires that all facilities respond to the recall within one (1) hour.</p> <p>The Process</p> <ul style="list-style-type: none"> • US Foods receives notice from vendor/supplier regarding product to be recovered. The corporate recall coordinator (CRC) gathers specific details regarding the recalled product from the vendor. • CRC contacts each Recall Coordinator at the affected divisions. • The CRC communicates specific product information to each affected division to ensure that only the affected product is being recalled. • Divisions take action and recovery becomes main priority. Actions vary on classification/severity of the product recovery. • Depending on the classification of the recall, (Class I Health Hazard, Class II Remote Probability of a Health Hazard) our customers are notified via telephone and/or certified mail. • Product is removed from sale and segregated. • Product is then either destroyed or returned to the Vendor. • CRC works with facilities regularly to ensure current contacts are accurate and up to date. <p>Food Safety Facility Audits: In addition to food safety audits conducted by the FAA, FDA or other federal, state, and local government agencies, US Foods uses a 3rd party food safety audit contractor, NSF International, to provide independent auditing of our systems, policies and controls. We are also subject to announced and random inspections by food safety auditors from our customers. NSF International provides US Foods yearly inspection and auditing services of our facilities to provide a second layer of food safety assurance. NSF International also provides unannounced audits semiannually randomly selecting a department to be audited. Audits are designed by department and cover all aspects of the operations within the department. Audits include:</p> <ul style="list-style-type: none"> • Food Safety • Receiving, Storage, and Shipping • Pest Control • Employee Practices • Building and Equipment Condition • Building and Equipment Cleanliness • Security

78	Describe your company's capabilities with fresh produce. How are local produce sources identified?	<p>At US Foods, we are committed to working with our growers to bring you the best-quality produce year-round under our Cross Valley Farms label. We understand that fresh produce is a key driver in many operations and can offer exciting, new ideas when presenting the freshest, seasonal products at every US Foods distribution center. We have a passion for produce and strongly believe that not all produce is created equal. We work with growers, repackers and suppliers to provide only the highest quality produce to represent our Cross Valley Farms brand, ensuring that our quality standards are maintained from the field to the customer. Knowing the importance of produce quality and safety, we require that all of our growers follow Good Agricultural Practices (GAP), Good Manufacturing Practices (GMP), and are SQF (Safe Quality Food) 2000 and GFSI (Global Food Safety Initiative) certified suppliers. From selecting the freshest and best produce available to maintaining industry-leading control over quality, we take the extra steps that other may not. Buying Local produce reduces the environmental impact and transportation costs which provides farmers with maximum return on their investment and means that money spent stays within the community supporting the local economy. US Foods is committed to providing opportunities for local suppliers and presenting these options to our customers on behalf of our suppliers with a three point local strategy:</p> <ul style="list-style-type: none"> • Providing education on the benefits of purchasing local and regional products • Creating visibility for local and regional food sources • Marketing and supporting local and regional foods. <p>Local and regional products can be identified at www.usfoods.com which features a "local" icon at the end of qualifying product descriptions. You can conduct searches to display only local items, click on the product number to view product information, including where the grower/manufacturer is located, and how for the grower/manufacturer is from your US Foods distribution center.</p>
79	Describe how your company will handle a participating entity that has manufacturer agreements in place.	<p>US Foods is committed to insuring the best financial value possible for SOURCEWELL members. If a SOURCEWELL member has negotiated a price for a product directly with manufacturer that is stocked at US Foods, we will support that agreement so long as the manufacturer sends the appropriate documentation at least twenty days prior to the effective date and manages updates as necessary.</p>

80	Describe how participating entities will access nutritional and product information, inventory, and product ordering.	<p>US Foods Online e-commerce platform website publishes nutritional information, product ingredients and pictures, including allergen and marketing claims of manufacturers. We require manufacturers to submit this information to us at the time of initial product set up. The website also provides detailed product information including extended product descriptions, ingredient statements, nutritionals, allergens, marketing claims, and pictures.</p> <ul style="list-style-type: none"> • Nutritional information - available online while ordering or searching for products. • Easily share information - download all search results with nutritional and allergen information. <p>With the nutritional claims filter, users can search on Child Nutrition Certification, Cholesterol Free, Fat Free, Low Fat, MSG Free, No Sugar Added and Trans Fat Free. You can also filter product searches by additional Nutritional Claims, Allergens and Marketing Claims which include Crustacean, Eggs, Fish, Gluten, Lactose, Milk, Mustard, Peanut, Soy, Tree Nut Free and Wheat Free.</p> <ul style="list-style-type: none"> • CN labels are available when manufacturers have provided to USF. • CN products can be searched by "CN or Child Nutrition" in US Foods Online catalogs. • Product Formulation Statements are available for customers to source directly from manufacturers' website. US Foods can also provide upon request. <p>Product Allergen Information: Product information is provided by manufacturers/suppliers, including information from the Global Data Synchronization Network (GDSN). We know that allergen information is important to many customers, so we are providing product information from the manufacturers/suppliers for the 8 most common allergens identified by the FDA, along with mustard, gluten, and lactose. This information may not cover potential cross-contact risks or alternate forms of the allergen(s). Please see allergen category descriptions below. Product formulations are subject to change and nutritional values can vary due to production, seasonal and other changes. Please always review the ingredients, allergens, nutrition information and other product information on the product packaging delivered to your location. US Foods does not assume any legal liability and makes no warranty or guaranty, express or implied, regarding the completeness or accuracy of this information.</p> <p>Allergen Code C= Contains-which means substance is intentionally included in the product. Allergen Code MC=May Contain-which means the substance is not intentionally included, but due to shared production facilities or other reasons, the product may contain the allergen. Allergen Code NII=Substance Not Intentionally Included-which means the substance is not intentionally nor inherently included in the product, however because it is assessed to not require a cross contact declaration, product testing may not always be conducted for confirmation (for example milk not inherently containing shellfish or peanuts or cheese sticks with not declaration of shellfish) Allergen Code NK-Not Known/Undeclared-which means that data is not provided by the manufacturer/supplier or is not included in the categories listed above.</p>
81	Describe your company's experience with multiple delivery locations for the same entity.	<p>US Foods currently supports thousands of customers with multiple delivery locations for the same entity such as States with facilities spread across their geography, school districts with multiple school sites, national chain business with locations that stretch across the country. We do this by giving each delivery site a unique customer number in our system tied to the delivery address, and then are able to manage each location independently while syncing them all together under their respective group such as State, Coop, District, Chain, hospital system, etc.</p>
